PROFILE

BSc Information Technology student with a growing focus on web development, programming and interactive digital projects. I build practical projects with HTML, CSS and JavaScript while exploring Python, AI-powered applications and beginner game development with Roblox Studio. I learn by building, testing and improving real projects.

TECHNICAL SKILLS

Web	HTML • CSS • JavaScript • Responsive UI
Programming	C • Python • JavaScript
Tools	Git • GitHub • VS Code • Netlify
Exploring	AI projects • Roblox Studio • Lua • Game development

SELECTED PROJECTS

Jyotish AI

Interactive Vedic astrology web application exploring birth details, Kundali, Graha positions, Nakshatra, Dasha and related tools.

[HTML](#) • [CSS](#) • [JavaScript](#) • [AI](#) • [github.com/prabeen43/Jyotish-AI](#)
